## Cork splints

**UNIVERSAL**

The UFS-system is an innovative, ready to use splinting system made out of cork. It is among others applicable to Hospitals (O.R., First aid department, casting rooms), rehabilitation clinics and sport rehabilitation.

The system is an easy to use, fast and clean product with a high level of patient comfort. Furthermore is the system free of dust and X-ray translucent.

**COMFORTABLE**

**FAST & CLEAN**

**DISPOSABLE**

The UFS-system is designed for immobilization. If needed the disposable splints can easily be adjusted with a scissor to the desired measurements.

Also to treat children the cork splints are very attractive to use as they are light weighted and to apply and remove the splints can be done in a child friendly way.

**X-RAY TRANSLUCENT**
